# Welcome

To all my customers, past, present & future:

This catalogue is a sampler of what we make. We are a custom shop and therefore do not limit ourselves to six or eight stock holster and belt patterns. Each piece is made for a specific person to their specifications.

The photos and prices should give you a good idea of what you will get for a certain price. the more elaborate you want, the more it costs.

We are most willing to work with you to give you the exact rig that you desire. No matter how fancy or how plain, we do our best to satisfy you.

We build leather products because we want to, not because we have to. We believe in our motto: Do it right or don't do it at all.

Send us a drawing, photo, or description of what you want and I will quote a price for your special rig. We also do chaps, saddlebags, rifle scabbards and metal lined holsters. We look forward to serving you.

Dave

### The difference between lined holsters and unlined holsters:

Unlined belts & holsters are made from one thickness of 14-16 oz leather. The inside of the holsters and belt will show the flesh or rough side of the leather.

Lined means two layers of 6 & 8 oz leather are glued and sewn together so both sides of the belt & holsters show the grain or smooth side of the leather.

### Measuring for belts:

For a Buscadero belt - we need your measurement from your zipper to the side seam of your pants and also the measurement from the right side seam around your back side to the left side seam. As well, we will need the distance all the way around your waist where you will wear your belt.

For a non Buscadero belt - just the distance around your waist in inches where you will wear the belt is all that is needed.

## The High Noon

Lined buscadero double holster and belt.  
\$500.00 without any decoration
